

MADUSHA SENEVIRATHNA

FULL-STACK DEVELOPER

Colombo, Sri Lanka | +94 78 296 2808 | isurangamadusha476@gmail.com | [linkedin.com/in/madu-isuranga-ab129a234](https://www.linkedin.com/in/madu-isuranga-ab129a234) | github.com/Madusha360

SUMMARY

Aspiring Full-Stack Developer and IT undergraduate with hands-on experience building real-world web and healthcare administration software using the MERN stack and Java. Skilled across both front-end interfaces and back-end database systems, with a fast learning curve, strong teamwork, and a drive to deliver impactful, production-ready software.

PROFESSIONAL EXPERIENCE

Fullstack Developer, Sri Lanka Telecom PLC (Head Office) – Colombo

Jan 2026 – Jul 2026

- Developed and maintained full-stack web applications using the MERN stack.
- Built and tested RESTful APIs using Postman.
- Collaborated with cross-functional teams using Git and GitHub; fixed bugs and improved application performance.
- Worked in an Agile environment, participating in daily stand-ups and sprint activities.

PROJECTS

Smart Campus Operations Hub — Auth & Notification Module

Feb 2025 – Jun 2025

- Built the security system for user logins and a real-time notification panel for students and staff.
- Connected Google Sign-In, encrypted user data, and added read/unread notification tracking.

Tools: Spring Boot, React.js, MySQL, Git, IntelliJ IDEA

UniCollab — Smart Resource Sharing & Notification Module

Feb 2025 – Jun 2025

- Created a centralized file-sharing hub and real-time alert panel to improve communication and track deadlines.
- Implemented smart file uploads, auto-reminder notifications, and an interactive team comment section.

Tools: MongoDB, Express.js, React.js, Node.js, Socket.io, Git

Tea Factory Management System

Feb 2025 – Jun 2025

- Built Raw Material Management functionality to track and manage incoming materials.
- Implemented supply-form CRUD operations with a MERN-stack backend.

Tools: Node.js, React.js, Express.js, MongoDB, VS Code

Online Stock Management System

Jul 2024 – Oct 2024

- Built CRUD operations using Java for feedback, cart, payment, and shipping management modules.
- Focused on enhancing the Payment and Cart modules for efficient transaction processing.

Tools: Java, MySQL, Apache Tomcat, Eclipse IDE

Online Fitness Management System

Feb 2024 – Jun 2024

- Developed a customer page with a user-friendly interface and responsive design.
- Implemented CRUD operations using PHP for the feedback form and contact page.

Tools: XAMPP, GitHub, HTML, CSS, PHP, JavaScript

Android Mobile App Development

- Coffee Shop Online Ordering App — designed onboarding screens, product listings, and cart system.
- Financial Tracking App — built a personal finance app to track income and expenses using shared preferences.

Tools: Android Studio, Java

SKILLS

Java, Python, Kotlin
R, SQL

MySQL, MongoDB
GitHub, Figma, VS Code

Android Studio, Eclipse, XAMPP
Communication, Teamwork

EDUCATION

B.Sc. (Hons.) in Information Technology, specializing in Information Technology

Jul 2023 – Present

ADDITIONAL INFORMATION

- **Soft Skills:** Quick Learning, Time Management, Communication, Problem-Solving, Teamwork.
- **Certifications & Courses:** Web-Design For Beginners (University of Moratuwa); Python for Beginners (University of Moratuwa); Spoken and Writing English Course (Slega Academy); A2-KEY Exam (Cambridge College of British English).
